PROFESSIONAL SUMMARY

I help startup founders and small business owners streamline their daily operations through reliable executive and administrative support, including calendar management, meeting coordination, email and inbox management, file organization, and customer service. With my background in Information Technology, application development assistance, and business operations, I bring strong problem-solving skills, attention to detail, and the ability to quickly learn new tools such as Google Workspace, Slack, Notion, Trello, and ChatGPT. My goal is to reduce your daily workload, keep tasks organized and on schedule, and give you more time to focus on growing your business.
